

## Fall 2019 Coalition for Physician Enhancement (CPE) Meeting

**October 3-4, 2019**

**AMA Building**

**330 North Wabash, Chicago**

### **Late Career Physicians**

#### ***Levers and Tensions in Assessment of Fitness for Duty***

During this CPE meeting, participants will discuss the assessment of competence and fitness for duty of late career physicians.

#### **Objectives**

Convene participants to:

1. Examine the key levers and tensions associated with late career physician fitness for duty from a regulatory (i.e., public safety), legal (i.e., human rights) and health workforce policy perspective.
2. Discuss and understand the various tools and options available for assessing late career physician competence and performance.
3. Identify the areas for development in late career physician assessment and performance maintenance for safe competence practice.

## AGENDA

### Day 1: Thurs Oct 3, 2019
